

656740 Sizzix® Bigz™ XL Die - Gift Card Holder w/Phrase, For You 3-D (Pop-Up) by Karen Burniston

1. Die-cut and apply adhesive as shown (cardstock or thick patterned paper is recommended).

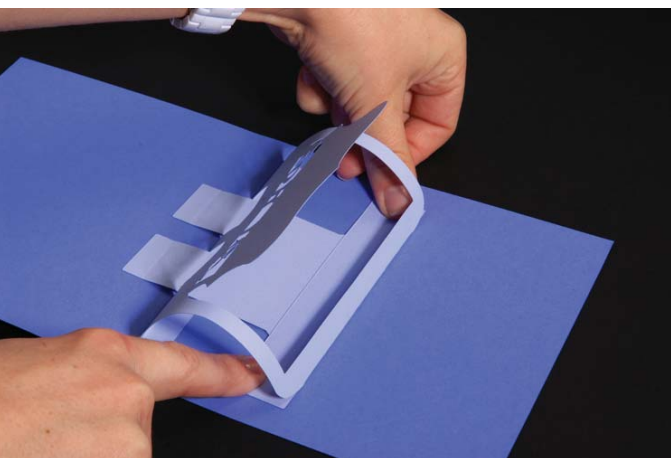

2. Fold the base flap under, align with center crease of card and adhere (minimum card size A2 4 1/4" x 5 1/2").

3. Fold the Gift Card Holder so that the two long tabs come through the cutouts. Fold the tabs so that the adhesive faces up.

4. Remove the adhesive backing from the two long tabs. While holding the Gift Card Holder flat, close the envelope and press down firmly. This will adhere the long tabs in position.

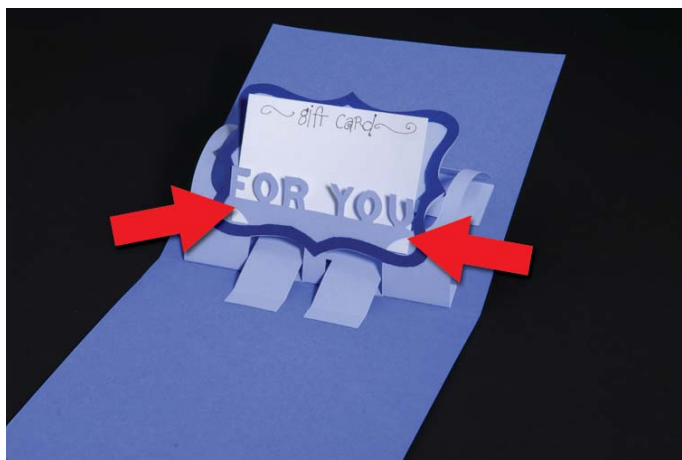

5. Open the card so that it is lying flat on the work surface. Remove the adhesive backing from the Anchor Strip. Carefully slide the Anchor Strip beneath the arches and adhere it to the card so that the back edge of the Anchor Strip is pressed up against the back crease. When opening and closing the card, the base should slide freely beneath the Anchor Strip.

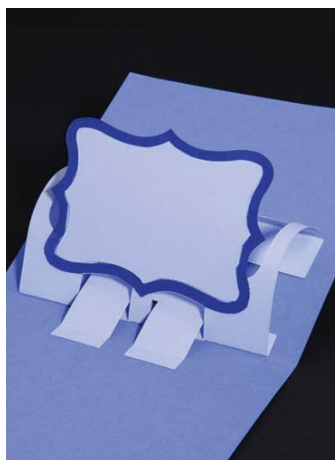

6. To create a frame, die-cut a second Gift Card Holder. Using a pair of scissors, cut along the perforated line and glue it to the front of the Gift Card Holder.

7. Inserted card goes behind the words "For You," and the bottom corners of the card fit into the two curved slots indicated by the arrows.

8. To use the pop-up as a billboard, either use the label cutout portion of the die or die-cut a photo to fit.
