

## 656547 Sizzix® ScoreBoards™ XL Die - Box, Cake by Eileen Hull

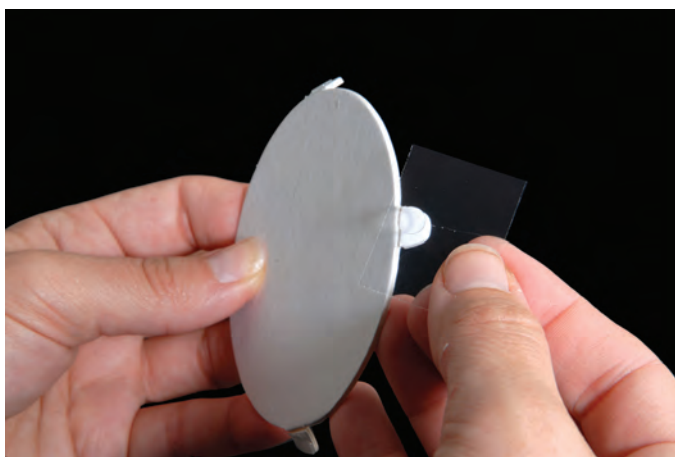

1. Die-cut Cake Box from mat board or chipboard and fold score lines. You will need to die-cut the side piece three times.

2. Connect the side pieces together using strong tape or with a small section of paper adhered to the end of each side piece.

3. Connect all of the side pieces together to create a cylinder.

4. Apply glue dots or a strong adhesive to the four tabs of the bottom piece.

5. Align the bottom of the cylinder with the circular bottom piece and press tabs firmly against the inside of the cylinder wall.
