

656601 Sizzix® Bigz™ Pro Die - Card & Pocket, Flower Pot w/Flowers & Leaf

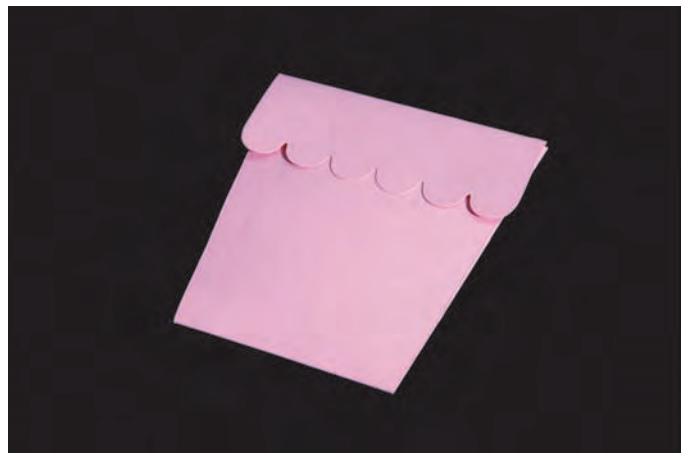

1. Die-cut from chosen material and fold along all crease lines.

2. Place adhesive on the two long side flaps of the Flower Pot as shown.

3. Adhere the front and the back of the Flower Pot together, forming the Pocket.

4. Fold and adhere the decorative edge flat to the front of the Flower Pot. Do not fold the decorative flap over the opening of the Flower Pot.

5. Decorate the top of the Card.

6. To create a more full flower arrangement, die-cut another Card and trim the corners of the wide end.

656601 Sizzix® Bigz™ Pro Die - Card & Pocket, Flower Pot w/Flowers & Leaf

7. Adhere the modified piece to the back of the Card.

8. Die-cut as many flowers as needed and arrange them as desired on the front of the modified piece.

9. Card should slide freely into the pocket. Be careful not to arrange your flowers too low on the sides of the Card. This may keep the Card from sliding in completely.

10. Add other embellishments as desired.
