

657132 Bigz™ Flower, 3-D (Flip-Up) by Karen Burniston

1. Die-cut pieces from chosen material as shown.

2. Fold the parallel score lines on either side of the bottom set of petals as shown.

3. With the petals folded down, attach the Flower and stem to the project with brads. Apply adhesive to the top arch of the Flower center.

4. Attach the petal piece to the Flower and stem with the petals facing downward as shown.

5. Adhere the round center to the back side of the Flower.

6. Pull down on the stem, and the Flower will open. Adhere the round center to the open Flower. Embellish as desired.
