

658822 Sizzix® Framelits™ Die – Box, Square

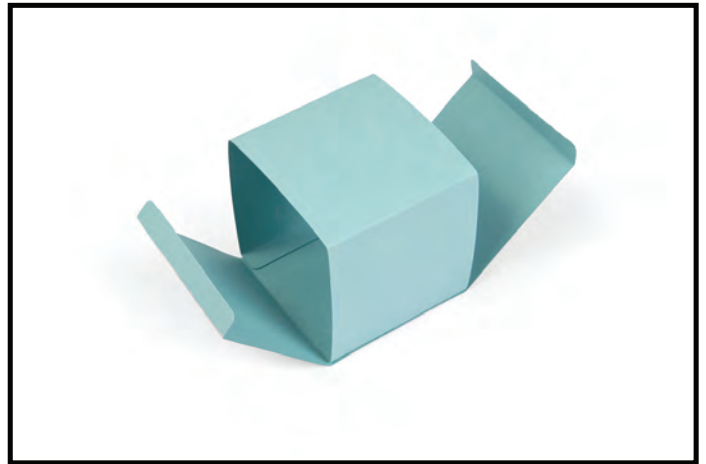

1. Die-cut two Box sides from desired material and apply adhesive to at least three of the tabs.

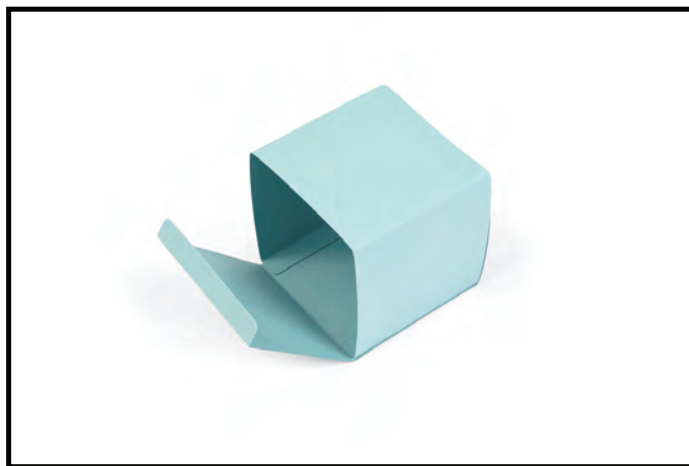

2. Fold both Box sides as shown, with the adhesive on the outside.

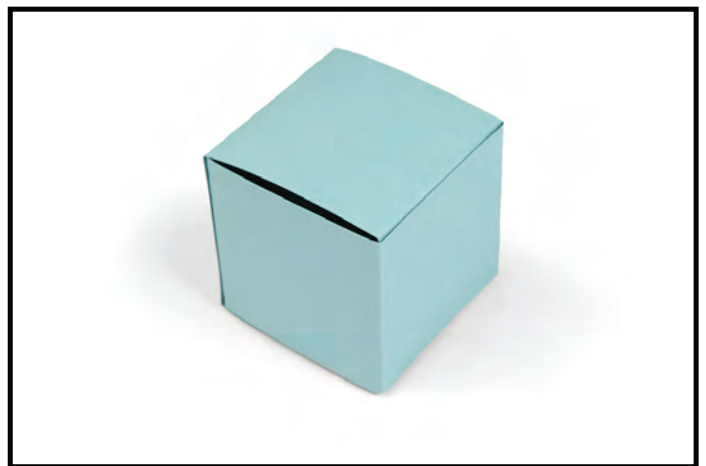

3. Adhere one of the end tabs to the center of the other. Align the fold of the tab with the edge of the panel as shown.

4. Adhere the other end tab to the opposite side of the first.

5. Adhere one of the remaining tabs to inside of its opposing panel.

6. The final tab can be closed with or without adhesive. Embellish as desired.
