

1. Die-cut from desired material

2. Adhere label to front edge of drawer.

3. Construct the Drawer by adhering the triangular tabs to the inside of the side pieces.

4. Construct the sleeve by folding all of the score lines in the same direction. Adhere the top to the long tab. Close the end of the sleeve by folding in the triangular tabs first, then fold the end tab over and insert it into the back of the box.

5. Slide the assembled drawer into the sleeve.
