

# 660961 Sizzix® Thinlits™ Die Set - Zombie by Tim Holtz®

1. Die-cut from desired material. The dies have been designed so that all the parts on each individual die will be cut from the same color of material.

2. Adhere first layer of embellishments to the front of the face as shown.

3. Flip face over and adhere the gums over the mouth opening as shown.

4. Adhere the remaining parts of the face with the exclusion of the nose.

5. Fold the head and the nose so that they will have some depth. Adhere the neck pieces to the main background. Adhere the head to the main background and adhere the nose to the face. This project can also be layered without a bend in the face and nose so that it lays completely flat.
