

Cup Critters (Rabbit, Fox, Lamb & Owl)

Figure A

The teacher will die-cut the materials for student use prior to the lesson.

1. Die-cut the animal pieces from construction paper or cardstock. It is necessary to cut two of some parts like arms and ears. Cut several of the curly lamb fur shapes for the body and face.
2. Students can embellish the animals with colored markers or crayons or by layering with colored paper pieces. Highlight the lamb curls by tracing over the perforated lines with colored pens or crayons.
3. Attach the body parts to a paper or foam cup in order to assemble each animal as shown (Figure A).

NOTE: Each animal can also be assembled on a toilet paper roll or attached to other surfaces, such as a drinking glass or a canvas bag.
